Task.D

This is a letter to Leonardo Hamato, my favorite ninja turtle whom I admire as my role model.

I like you since my childhood, you ~~are~~ are my favorite from all turtle brothers. I wanted to be a ninja like you. I always liked your dual katanas and leader skills, and I always thought that you are the strongest ninja turtle. But I also know, that being a leader - it's not only a strength and giving commands to friends. Leader is also a family member, who can fill others and strongly work with them together, not only like ^{with} a command, but also like with a family. And I wonder how cool you learned Japanese and Chinese and speak them fluently. I want to speak English and one other language like you speaking on Japanese and Chinese. I think that's all what I wanted to say. I wish you good luck in your future adventures and events with brothers.

Goodbye

Today many teenagers saying that they have strict curfews and it's very awful. But they don't think about their safety. First of all, strict curfews watching on your safety. This is the reason why many teenagers think that strict curfews is bad. Curfews often asks where they children at, who are with their children. It's all about safety. I cannot say that it's ^{bad} good, but also it's not good. Teenagers can be traumatized by this warning. And that can make the suppressive thoughts in the head of teenager, and that's not good.

~~Second~~ ~~strict~~ Teenagers with strict curfews can't live alone because their parents didn't allow them to do something by themselves. It causes many problems in teenagers life when they grow up. I think in this question, parents have to give more freedom for their childrens.

I think that strict curfews is not good for teenagers. In this age, they need more freedom, more space. But curfews don't have to be like "Oh, do whatever you want". They have to control their ~~to~~ business.

15). In nowadays a lot of teenagers are responsible and can protect their interests. It is really important to give the teenagers making choices because they are new in adult's life and they need to practice.

One of the great idea of teenagers' practicing and studying is Family + Decision - Making. Numerous of children have their own role and work at home, especially teenagers. This is good for them too. Also, parents should give their children making the choices. Teenagers should make family decisions and parents should hear them. For example, family's moving. Asking the children about their thoughts of moving is very important, children's happiness depends of that.

In conclusion, my point of view is children, teenagers need to feel their importance. That is why they should have their own voice.

D) The Impact of Gender Stereotypes on Teenagers' Career Choices.

Nowadays teenagers have multiple choice for their future profession. But why and how teenagers choose their career? And this essay will discuss about it.

Firstly, in my point of view it is gender stereotypes. Not ~~was~~ all people but most of them will agree with this. Because gender stereotypes are huge problem. And teenagers also victims of gender stereotypes. It starts with colours, when little girl wears pink shirt or dress, it's normal, but if little boy wears pink it's a problem, "boys shouldn't wear pink or any girly colour". In my opinion this kind of words, can damage childrens mind. Gender stereotypes are putting on everything, not only clothes or toys, it's in (~~career choice~~) professions and career choices also. For example, do we have "like woman's"? and I think that it's terrible and wrong. Teens always watches movies or serials, and in movies they have never seen hacker being a woman. ¹⁵⁰

But now step by step world breaks gender stereotypes. Teenagers can be worry about their career choice, but they don't mind gender stereotypes because it's not that thing that you should care. Teens can be confident and happy without stereotypes.

Writing

The Impact of Gender Stereotypes on Teenagers' Career choices is bigger than was thought. We all know ~~the~~ promoting experienced and intelligent worker is a great choice. Promoting good workers makes them even better at work. It is very simple to understand, isn't it? And we know men and women have equal chance to be promoted, isn't it? Maybe this is true, but in reality, there is some problems. Most of the promoted workers are men, and it is not because men workers are better than women workers, and it is not because the lack of ability of women. It is just a stereotype.

From the ancient time, man was known to be better than women in ~~all~~ the most of all. They're stronger, smarter, faster, more intelligent and etc. Women were guardians of home pieces, and this stereotypes still with us. We know phrases like: "weak gender", "family defender", ~~and~~ companies look more on abilities than a gender. But in some conservative places look more on gender. It's pity. Because a lot of young people might be a pro at their sphere. They maybe could build a career, but a companies blocking their road to successful. It is great to know that ~~the~~ in our times, those stereotypes are being forgotten. In my opinion, it is forbidden to make a choice depends on gender. Whether we man or women, girl and boys, we have equal (to be) choice, ~~to be~~ equal chance, equal determination to be ~~with~~ what we wanted to be.

IV. Writing - D)

Nowadays, humanity have a bad ^{impact} influence on teenagers career choices, due to gender stereotypes. Despite to tolerant relatives of our generare, we have pressure of the parents side. That is why in our world, we have a small amount of happy workers.

For that moment, we have a big various of majors and large choice of workplaces. Teenagers is a people, who is not adults major, but they also not a children already. That is why, they have personal interestings and point of view. Nevertheless teenagers have a lot of impact, because of gender stereotypes and this follow us all life. The most awful thing, is that due to bad influence on teenagers profession make them unhappy. People thinks, that girl cannot be a builder, for instance, or boy cannot work, as a cooker, then they make a teenagers think same, convince them to go on that profession, that suit their gender. However, It is wrong. I am glad, that teenagers start to choose what they like and interested, despite of their parents opinion. Me and my friends promoting gender equality in career guidance that is why my classmate would study as a designer, and I as a diplomat in international relatives. Moreover, as far as I know, people who made a wrongs career choice often feels exhausted and moral tired. In addition, most of this people was disapointed.

In conclusion, I want to say that choose the career, that is your cup of tea, despite adults opinion is really significant. Because this is your future, your decision and your own mental health.

I advice to be carefull and donot think about gender stereotypes, when you choose your major. That helps you be more succesfull and feel good even after all day work.
